

PORTFOLIO

ABOUT US

First founded in by Ar. Kayge Palmiano in Naga City back in 2016 as a freelance architect, KP.Architectural Design Studio strives to impact places thru architecture. No matter what project we're designing, we strive to put first all the needs of our respective clients. We envision spaces that will inspire people, help them connect with one another, and enrich the human experience. We design code compliant structures, sustainable, well ventilated and properly circulated buildings thru responsible design and architecture.

ARCHITECT

The Principal Architect with years of competitive knowledge in the design industry. Has strong background in computer literacy with various ideas in many types of software's and program. Been mentored by some of the best architects in the Philippines while working under them, Kayge applies all the learnings and best practices in his own projects moving forward. Acts as the Main Architect from start to finish of the design period up to coordination from design to construction phase, he's been hands on from start to finish in all of the projects he's handled making sure that as much as possible the design will always be properly executed as planned.

AR. JOSEF KEVIN DR. PALMIANO
